

## Contractor Management

ELMO Learning sets the benchmark in Contractor Management. Our Contractor Management solution assists our customers in mitigating risk and meeting legal requirements.

*When used in conjunction with the ELMO online Contractor Induction, the Contractor Management system provides a comprehensive solution for managing your compliance obligations.*

### Key Features

- Single point of access
- Comprehensive, customised reporting functionality
- Auditable evidence trail
- Manage all your contractor documentation (e.g. work permits, insurances, licenses, certifications etc)
- Off-site accessibility
- Branded to your organisational requirements
- User friendly interface
- Notification emails and alerts
- Full administrator control

Like all ELMO solutions, configuration is tailored to your needs. Our experienced and friendly team will work closely with you to ensure you get the most out of your investment.
