

When I click on the module link, nothing happens

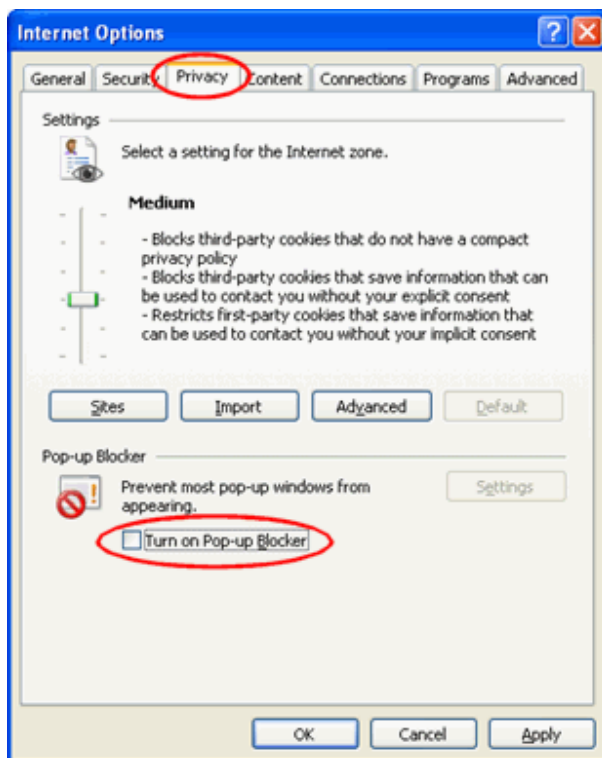

If the course is not opening up for you, this may be due to your internet browsers **pop-up blocker** being switched on.

To turn pop-up blocker off do the following:

1. In internet explorer click on **Tools** -> **Internet Options...**

2. Select the **Privacy** tab and **uncheck** the "Turn Pop-up Blocker on" box.

3. Click **OK** then **refresh** the webpage (This can be done by pressing the **F5 key**).
